

September is
Cholesterol
Education Month.

linked to heart disease.

Carotenoids: In carrots, leafy greens, sweet potatoes. Carotenoids may help prevent cataracts and other age-related eye diseases.

Flavonoids: In cherries, berries and red grapes. These pigments have shown anti-inflammatory effects, and may also protect heart and brain health.

Sulforaphane: In broccoli, cauliflower, kale and cabbage. This plant compound has been shown to reduce cancer cell growth in lab and animal studies.

September
is Fruits and
Veggies —
More
Matters
Month.

Do it for
your heart
and your
long-term
health.

>> Remember, there isn't 1 superfood that will fully protect your health on its own, but a variety of colorful vegetables and fruit are part of a balanced diet that has proven health benefits.
